NEW CHAIRMAN OF THE BOARD FOR DANIIT A/S

Niels Pedersen was on the annual general meeting on 15th May '19, constituted as the new chairman of the board of Daniit. He thus replaces Kent Ernst Hansen, Esbjerg Brygge Invest A/S, who continues to remain on the board as a member and minority owner.

As the former CEO of Grintec A/S, Niels has for many years developed a very strong management profile and thorough knowledge of the company's basic operation. Niels will therefore play a vital role in realizing Daniit's future strategy called FOKUS.

"We are very pleased that Niels Pedersen has accepted the role of new chairman of the board, and we are confident that his experience and skills will be a great asset for the company," says Henning Kongstad, managing director of Daniit.
