DATA
WAREHOUSE

AS A SERVICE

Service Enablement Services (SES)

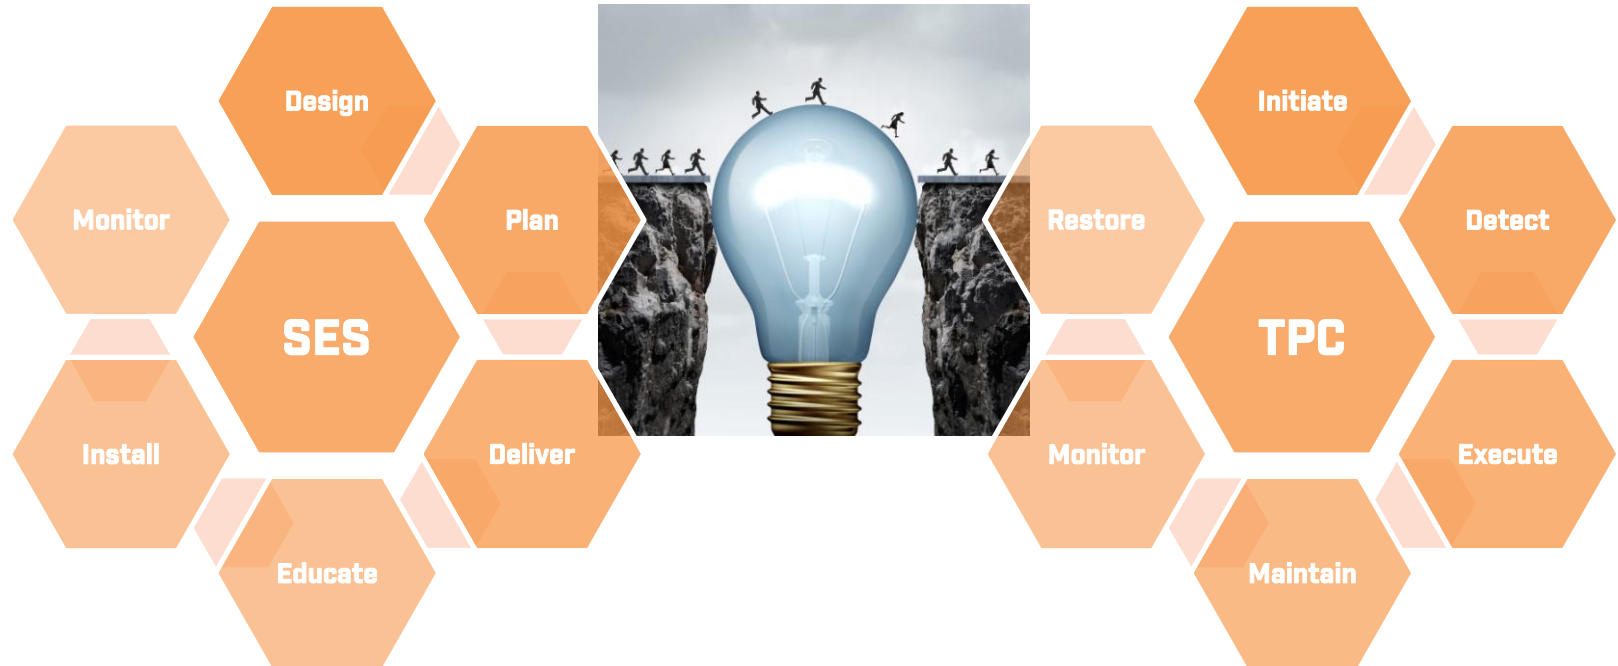

Daniit has made it easy for you to gain access to AND utilize your manufacturing masterdata and thereby transition to Data Warehouse as a Service

Service Enablement Services (SES)

helps customers to transition from their current setup to a ready-to-use Data Warehouse as a “rented” Service.

Technical Project Team (TPC)

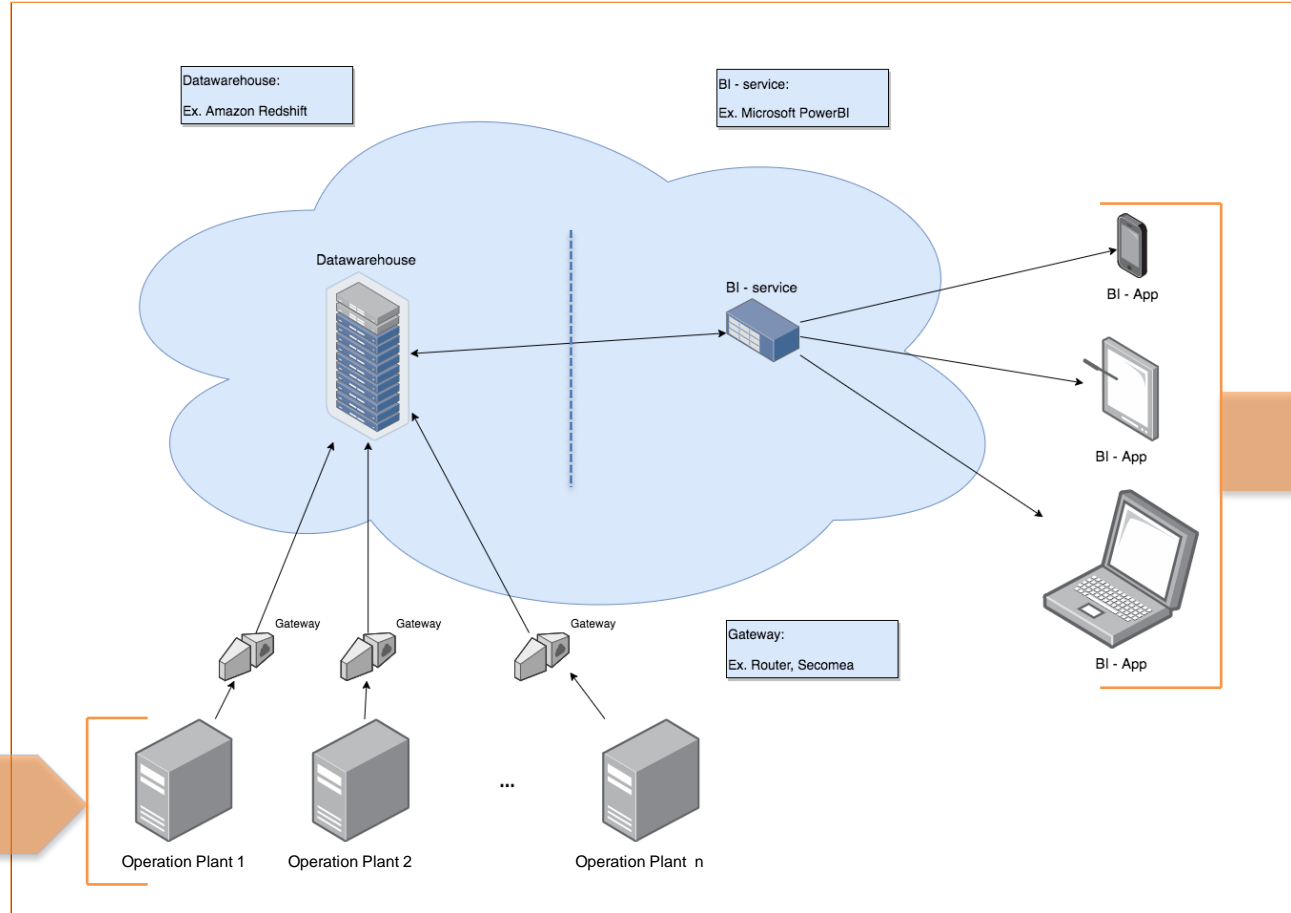

will be assigned to SES with the responsibility to initiate, detect, execute, monitor, maintain and restore data.

INPUT

DATA WAREHOUSE as a SERVICE (DWaaS)

We have made it easy for you
Data Warehouse as a Service - Highlights

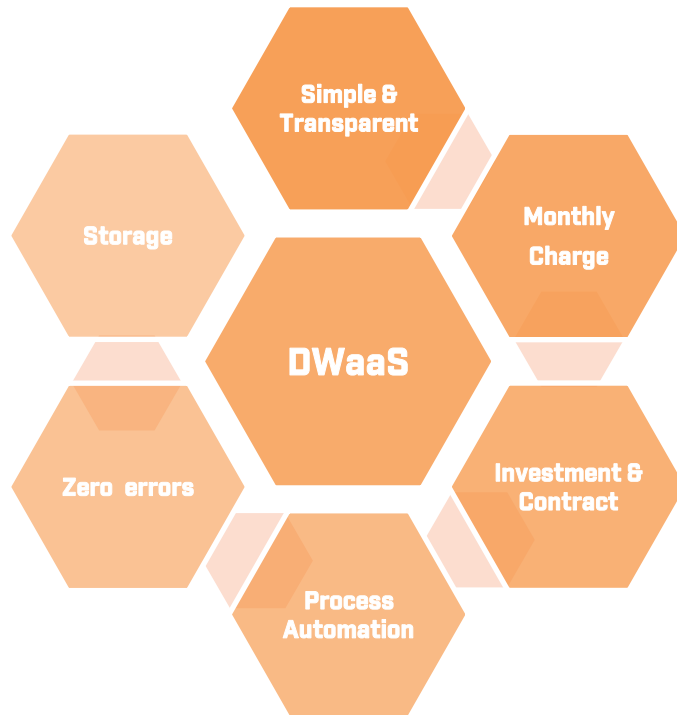

As a Service Model

- ✓ Simple and transparent price model
- ✓ Only Monthly Recurring Revenue (MRC) and One Time Charge (OTC)
- ✓ Payment is post invoice date
- ✓ No investments (CAPEX) associated
- ✓ Full automation of masterdata processes
- ✓ No long-term contract or notice period is required
- ✓ Zero error in DW source material
- ✓ Storage (Gb) is free

DATA WAREHOUSE as a SERVICE (DWaaS)

We have made it easy for you
Data Warehouse as a Service - Highlights

Two (2) Service concepts

- **Concept 1**: A cost-sharing distribution, that takes individual tonnage and cost per factory into account
- **Concept 2**: An equal (1:1) cost distribution per factory, which does not take individual tonnage per factory and cost into account
